

CONFERENCE SPONSORSHIP & EXHIBIT OPPORTUNITIES

Designing & Delivering Net Zero Buildings

12nd May 2023 | The Gibson Hotel (Dublin)

Build Green Now is back in 2023. Your chance to network and catch up on the race to zero. Following the launch of Building a Zero Carbon Ireland in October, we look at the implementation of the key recommendations on building for performance, whole life carbon and circularity. How do we move from a design for compliance to a design for performance approach, how do we enable comparable whole life carbon measurement. How can we enable whole life carbon reduction with a transition from a linear make, break waste construction sector to full circularity.

TARGET AUDIENCE

Over 200 construction professionals including investors, developers, architects, engineers, contractors and planners
